For an expansion, the company must increase the number of employees on the payroll by 10% or six employees, whichever is greater. Abatement is voidable if business fails to comply. If a business is not maintained in this state for five years after tax abatement approval, the company will repay to the Department of Taxation the amount of the abatement allowed before the failure to comply. Interest will be repaid on the amount due at the rate most recently established pursuant to NRS 99.040, or portion thereof, from the last day of the month following the period payment would have been made had the abatement not been granted, until the date of the actual tax payment. The Nevada Department of Taxation can determine the business has substantially complied with the requirements.

Applicant should allow a minimum of 15 working days prior to the next regularly scheduled Commission meeting for application processing. Those requiring special review and consideration may require a longer period of time to complete the certification process.

A letter in support of the tax abatement from the local development authority is required.

The applicant will register with the Department of Taxation on a separate form if an account has not been established.

Upon certification, the Commission will immediately forward the application for abatement to the Nevada Department of Taxation – the administrator for tax abatements. The Tax Department's Revenue Division will determine what purchases qualify for abatement, verify the sale, the price paid, and the date of sale. ■
