Put Made in Nevada to work for your business...

Established more than 20 years ago, Made in Nevada assists small businesses with their marketing needs and increases their exposure within and outside the Silver State. Today more than 100 businesses participate in the marketing cooperative.

The “Made in Nevada” brand helps manufacturers and artisans boost their business through better name recognition. The benefits of a \$50 annual membership are effective activities including website portals, print publications such as this Holiday Catalog, cooperative participation at trade shows and media advertising.

Great Basin Sourdough Starter Co. owner, Sharon Donaldson-Arnold says, “Made in Nevada has helped to get the word out about my company through its website and advertising. I would say that half of my sales during the past nine years that I have been a member have been through Made in Nevada.”

Members also benefit from technical advice provided through the program. Eureka-based American Pet Diner is now selling worldwide after learning the ins and outs of exporting. Its president, Lisa Marshall has been a member for seven years, “It helps me to network with small businesses like mine to get ideas, resources an inspiration.”

Is it time to put Made in Nevada to work for your business?
